Note: you may need to restart the kernel to use updated packages.

```

1.1 additional installations

You want to have pandoc and xelatex on your device. The former you can get by downloading and executing the .msc file that fits your system (linux, windows, mac): - <https://github.com/jgm/pandoc/releases/tag/3.1.11.1>

The latter you can get on the latex project (just install any major version): - <https://www.latex-project.org/get/#tex-distributions>

2 If all of this does not work...

Just save as html and then convert the html in your browser...

```
[ ]: print(1+1)
